

Contactless Move-In Safety Measures

To ensure everyone's well-being, our team is committed to these

After application approval

security deposits are paid through your resident portal to hold the property for you prior to move in.

After deposits and first month's rent is received

We will provide the combination to a lockbox attached to the front door of your rental where you will be able to collect the keys for your move-in.

The lease agreement

will be sent to you to view and sign electronically along with a TREC video to help further understand the documents being signed.

Any additional documents and resources

will be left on the kitchen counter of the rental property for you to review and keep.

Utility Company Information

will be provided via email and phone to assist you in transferring the utilities to your own name.

Together, let's do our part to keep each other healthy.
